

#### **EVENT SANCTIONING**

#### **Definition / Directive / Types**

Sanctioned events take place within clearly defined parameters set out by your Member and its constituents. These can include association, team and league scheduled practices, games, evaluations/tryouts and related activities. These activities, which would qualify as "normal" hockey program delivery, all fall within the scope of regular day to day operations of an association, team, or league and do not require specific sanctioning authority.

However, program extensions such as dry land training camps, exhibition games, fundraising and tournaments all require separate specific sanctioning or approval.

It is understood that in the course of annual programming many team, association, and league activities can fall outside what is considered to be normal programming. These kinds of activities usually occur away from the arena venue and in the surrounding community where opportunities exist to enhance the programs offered to our teams.

The following are a guideline with respect to the sanctioning of events by Hockey Canada Members. Please note that these are only tools to help you in your decision making process and do not supersede Member sanctioning guidelines.
